

How to select size of the Grounding cable?

If you are in Thailand as a rule of thumb for standard applications can follow the following table.

Main Cable (the size of the cable it is used after main breaker in SQ mm)	Ground Cable (the size of bare copper cable in SQ mm)
4	2
6-16	6
25-50	10
70	16
95-120	25
150	35
185-240	50
300	70
400+	95
